SUMMARY

Front End Developer with 2 years of hands-on experience in React, seeking a dynamic and challenging role to leverage my skills, contribute to impactful projects, and grow within a forward-thinking team.

EXPERIENCE

- Accenture** Gurugram
Package Application Development, Associate July 2023 - Present
 - Working as Front End Developer:** Working on client and internal projects as a **Front End Developer (ReactJs, ReactTs, HTML, CSS, SCSS, Bootstrap)**.
 - Feature Development:** Developed new features and enhancing existing features, optimizing performance for a seamless user experience.
 - Third-Party Integration:** Integrated **third party libraries** into the project where necessary to improve functionality and efficiency.
 - State Management:** Managed component states and props to create dynamic and interactive user interface. Translating **Figma** design into code in an efficient manner.
 - Feature Contribution:** As a **frontend developer**, I actively contribute feature ideas and enhancements wherever I identify opportunities for improvement.
 - Task Management:** Consistently participate in team meetings and ensure timely completion of all assigned tasks. Updating **azure board** and maintain accurate updates on the **Azure board** to reflect progress on assigned tasks.
 - API Integration:** Integrated with back-end services and **APIs** to fetch and display data dynamically and test api response using **Postman**.
 - Backend Collaboration:** Collaborated with backend developers to design and implement robust and scalable api endpoints.
- Advantev** Remote, **Certificate Link**
Software Developer Intern (Internship, Chandigarh) Jan 2023 - June 2023
 - Front End Development:** One of the seven members in the development team for the client project and developed feature using **React and JavaScript** to enhancing Clarity and user experience on web pages.
 - Backend Development:** Built scalable and well-structured REST APIs using Node.js and Express, with clean and maintainable endpoint architecture.
 - Client Demo Expertise:** Conducted regular client demos, effectively presenting product features and functionality, and actively integrating client feedback for ongoing enhancements.

PROJECTS

- Content Editor Tool:** Integrated Prompt API to manage the generation and verification of AI-driven product descriptions. Collaborated with copy editors to refine AI-generated content, ensuring clarity, coherence, and adherence to style guidelines. Key features include description generation, description regeneration, clipboard copy functionality, thumbs up/down feedback system, and a conversational prompt (chat bot). Integrate **redux toolkit** to store all previously updated descriptions and display them on the side bar. **Technology used: ReactTs, Redux Toolkit, HTML, CSS, Scss, Bootstrap.**
- Go To Health:** Developed a web-based healthcare application connecting various healthcare providers and facilities. Utilized Node.js to build server-side logic and RESTful API endpoints, ensuring seamless frontend-backend integration. Implemented features that allow users to search for information on medications and book appointments. **Technology used: ReactJs, HTML, CSS, NodeJs, ExpressJs, MongoDB**

SKILLS

- Technical Skills:** JavaScript, TypeScript, HTML, CSS, SCSS
- Frameworks/Library:** React, Redux Toolkit, RTKQuery, Bootstrap, React Hook Form
- Tools:** GIT, GitHub, VScode, Figma, Postman, Azure
- Soft Skills:** Project Management, Good writing and speaking skills, Time Management
- Working Knowledge Of:** Core Java, Nodejs, ExpressJs, MongoDB, API Development.

CERTIFICATES AND AWARDS

- AZ-900 certification - **Microsoft**
- Java Certification - **Hackerrank**
- ACE(Accenture Celebrates Excellence) award
- Sparkling star of the Month - 3 times

INTERESTS

Bike riding, Exploring mountains, Playing

EDUCATION

- Guru Nanak Dev University** Amritsar, India
Master of Computer Applications; CGPA: 8.9 July 2020 - May 2023
- S.R.P.A Adarsh Bhartiya College** Pathankot, India
Bachelor of Computer Applications; Percentage: 75 July 2017 - May 2020
