Work Experience

Accenture

July 2023 – Present

Frontend Developer, Analyst

Gurugram, Haryana, India

- Contributed to both client-facing and internal projects using React.js, React.ts, HTML, CSS, SCSS, and Bootstrap
- Converted Figma designs into efficient code and developed UI features from scratch
- Partnered with the design team to implement UI features, coordinated with backend developers for seamless API integration and supported QA processes through timely fixes and testable code
- Participated in Agile/Scrum sprints, used Azure Boards for task tracking and ensured on-time feature delivery
- Resolved security issues by sanitizing dangerouslySetInnerHTML, upgrading vulnerable packages, and preventing sensitive data exposure by removing username from API requests
- Built a reusable custom hook for popup modal state management and enhanced an existing API hook to reduce redundancy, improving maintainability and code efficiency
- Optimized performance by preventing unnecessary re-renders of a heavy component using memoization and state management techniques, resulting in a 10-20% reduction in re-renders
